†14 clinical studies posted on ClinicalTrials.gov, a website maintained by the NIH, evaluated subjective comfort as a primary or secondary endpoint for 1-DAY ACUVUE® MOIST brand family (spherical, astigmatism, and multifocal) contact lenses vs. competitors' products. Published trials include comparisons between etafilcon A and nelfilcon A, omafilcon A, hilafilcon B, ocufilcon D and nesofilcon A. Review conducted as of October 31, 2022.

‡Helps protect against transmission of harmful UV radiation to the cornea & into the eye.

^WARNING: UV-absorbing contact lenses are NOT substitutes for protective UV-absorbing eyewear such as UV-absorbing goggles or sunglasses because they do not completely cover the eye and surrounding area. You should continue to use UV-absorbing eyewear as directed. NOTE: Long-term exposure to UV radiation is one of the risk factors associated with cataracts. Exposure is based on a number of factors such as environmental conditions (altitude, geography, cloud cover) and personal factors (extent and nature of outdoor activities). UV-blocking contact lenses help provide protection against harmful UV radiation. However, clinical studies have not been done to demonstrate that wearing UV-blocking contact lenses reduces the risk of developing cataracts or other eye disorders. Consult your eye care practitioner for more information.

Your use of the prepaid card is governed by the Cardholder Agreement, and some fees may apply. This is not a gift card. Please note that prepaid cards are subject to expiration, so pay close attention to the expiration date of the card.

Be sure to keep a copy of your paperwork for your records. See terms and conditions above. Please allow 6-8 weeks for delivery of your reward.

Important information for contact lens wearers: ACUVUE® Contact Lenses are available by prescription only for vision correction. An eye care professional will determine whether contact lenses are right for you. Although rare, serious eye problems can develop while wearing contact lenses. To help avoid these problems, follow the wear and replacement schedule and the lens care instructions provided by your eye doctor. Do not wear contact lenses if you have an eye infection, or experience eye discomfort, excessive tearing, vision changes, redness or other eye problems. If one of these conditions occurs, remove the lens and contact your eye doctor immediately. For more information on proper wear, care and safety, talk to your eye care professional and ask for a Patient Instruction Guide, call 1-800-843-2020, or visit www.acuvue.com.
